

Maple Syrup Seminar

Hey, The days are getting longer and the Maple sap will soon be flowing. There is a special time of the year when we are able to capture sap from the Maple trees and produce some beautifully delectable Maple syrup! The Outdoors Workshop of Hill Village Bible Church will be conducting a Maple syrup seminar From Tree to Table. Let's get together on Saturday March 8th to learn all the steps in the Maple operation to produce Maple syrup and test some Sugar on Snow! We will gather at the Slim Baker Lodge in Bristol NH from 1 – 4 pm. This is an interactive event and we will learn tree identification, the Science of the sap flow, how to tap a Maple tree, Filtering and evaporation and then how to finish and bottle our delectable amber syrup back in the kitchen. This seminar will get you knowledgeable on a time honored New Hampshire tradition of making Maple syrup and gets you outside into the woods at a great time of year. Much of the class will be spent outdoors so dress for the weather and woodland conditions.

The Outdoors Workshop puts on many Outdoor themed events throughout the year. Stay tuned. This is a family friendly event and all are welcome. This seminar is free of charge. Registration is required Please contact Jeff to register. Call or text 603-770-4386. E-mail jeffbeach74@gmail.com Slim Baker Lodge 301 New Chester Mountain Road, Bristol NH
