Selectmen Business

Primex informed us that the evaluations of our building and numbers that they go by are given. Every year we are supposed to put in new evaluation and it seem they have not been moved up as the building are assessed for more money. By next year we should have full inventory of all things that would need to be replaced if the building was to be destroyed. Each department need to let the selectmen office know the big items in their departments that are worth money this year.

Amanda read of the previous numbers that were the valuations and discussion was had. All the department heads know that they have to work on getting some new numbers by next week and a full inventory by the end of the year.

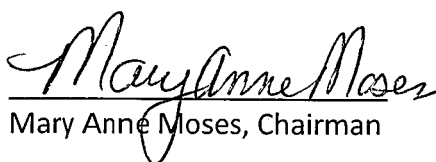

Casey Brought up how he sees the police department shifting around in the basement which could leave room for possible more storage downstairs.

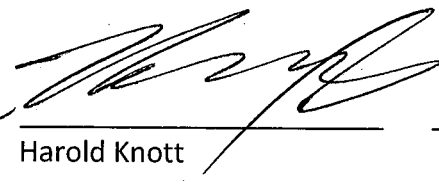

Mary Anne Moses is going to look at all the property to double check their value and let Amanda know the cost of the building's worth.

With no further business to conduct, Stephen Thomson made the motion to adjourn the meeting and Harold Knott seconded the motion. Motion passed unanimously motion at 2:05 pm.

Respectfully Submitted,

Amanda Curtis

Mary Anne Moses, Chairman

Harold Knott
